Title IX Proportionality Figures for RHS

Providing participation opportunities for male and female RHS student-athletes is one of our top priorities. The percentage of female student-athletes should be proportionate to the overall female population of the school. The ratio needed for compliance is determined on a case by case basis by the Office of Civil Rights (OCR) but in general, to be considered “proportional” means the ratios must be within five percent (5%) or less. The participation figures at RHS during the 2015-16 school year were as follows:

TOTAL Participants for RHS 2015-16	Male: 554 Female: 463
Male Participants / Total Male Population:	554 / 1232
Female Participants / Total Female Population:	463 / 1121
% of Male athletes / % Male Population:	54.5% / 52%
% of Female athletes / % Female Population:	45.5% / 48%
